Update Driver

Roll Back Driver

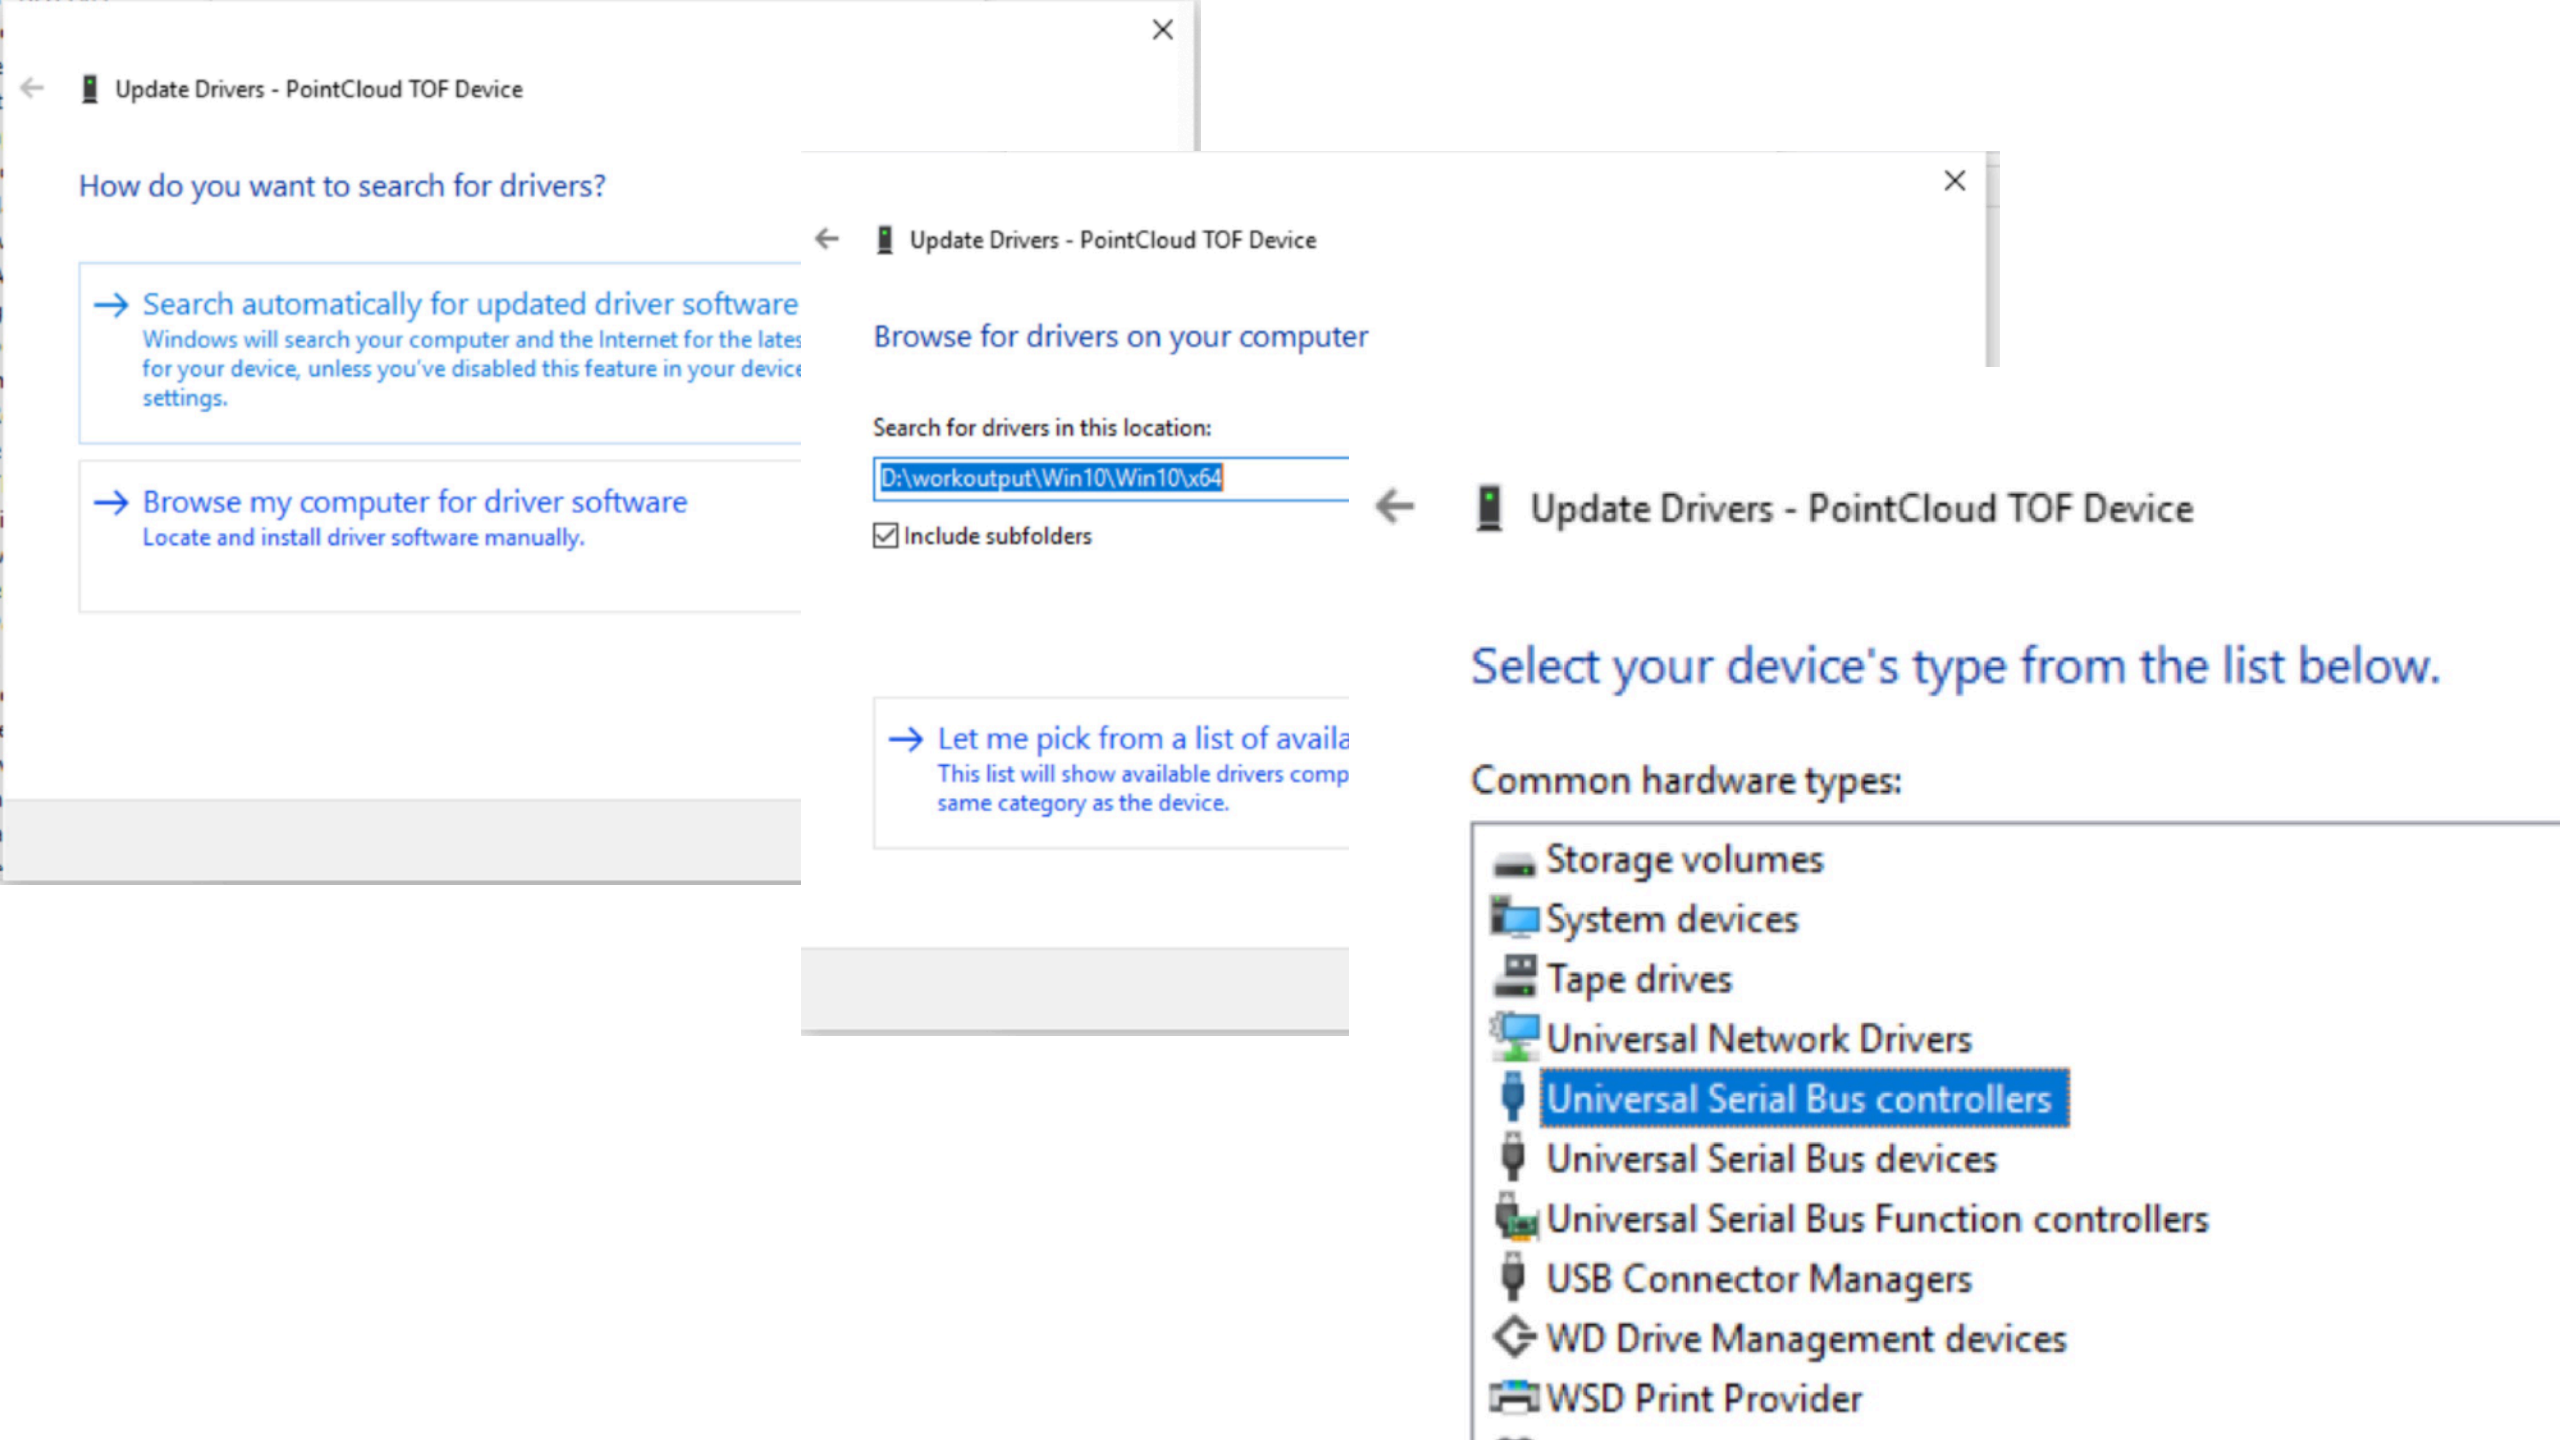

Disable Device

View details about the installed driver files.

Update the driver for this device.

If the device fails after updating the driver, roll back to the previously installed driver.

Disable the device.

How do you want to search for drivers?

→ Search automatically for updated driver software
Windows will search your computer and the Internet for the latest drivers for your device, unless you've disabled this feature in your device settings.

→ Browse my computer for driver software
Locate and install driver software manually.

Update Drivers - PointCloud TOF Device

Browse for drivers on your computer

Search for drivers in this location:

D:\workoutput\Win10\Win10x64

☒ Include subfolders

→ Let me pick from a list of available drivers
This list will show available drivers compatible with the device.

Update Drivers - PointCloud TOF Device

Select your device's type from the list below.
